WOODHEATERS DESIGNED AND MANUFACTURED IN AUSTRALIA

Jindara, classic and modern woodheating options

A striking centre piece to radiate warmth throughout your new home, the Platinum series will provide warmth and ambience for many winters to come with dependable heat that only woodheating can offer.

For a more traditional style of fan forced wood heating you can't go past the Outback and Paramount series, Outback design featuring a tall easy loading stance, while the Paramount heaters feature robust cast iron firebox liners, both designs will keep your home warm thru the coldest of winters, year after year.

Ask in-store about the new radiant series, great for high ceilings or poorly insulated homes.

With Kemlan marking 50 years in the Australian woodheating industry, you can be confident that they have a model in their range to suit your wood heating needs for our changeable winters, from traditional fan forced or radiant models to contemporary linear freestanders and inserts all offering rapid, quick heat output and long burn times. Australian made for our changeable winters.

Stylish ways to cut heating costs with HFT Interiors

As winter approaches and heating costs are on our mind, Luxaflex leads the way in technology, innovation and energy efficiency.

The perfect addition to the home ahead of winter is the Duette shades range, recognised as one of the most energy efficient window coverings on the market.

From the revolutionary wireless technology on blinds to a new range of fabrics available for curtains, HFT Interiors would love to show you the complete range.

Michael and Stella West have recently bought HFT Interiors after Michael had been with HFT for seven years.

The experienced consultants have a wealth of product and interior design knowledge, and their friendly installers will ensure the product installation is seamless.

"It's a great business to be in, it's really rewarding as blinds or curtains can really transform a client's home, and there is nothing better than a happy customer," said Michael.

"I started in the industry in Melbourne some 16 years ago, and my favourite part has always been the problem solving and making it happen.

"Our team's philosophy is to make sure the product is right for the client and assist them in arriving at the best solution for their home," said Michael.

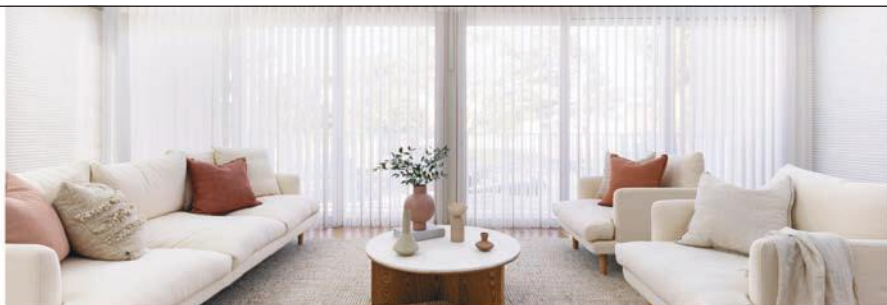

Make an appointment or come into the HFT showroom to have a look at their range and talk to an expert at 2 Mertonvale Circuit, call on 6229 2915 or go to hft.luxaflex.com.au

Gutter-Vac Southern Tasmania carries out the gutter cleaning efficiently and effectively, using professional equipment to achieve results. (PS)

Reduce risk and cleaner gutters

Vacuum gutter cleaning is a specialised process that will remove the corrosive sludge from your gutters, giving your gutters a longer lease on life.

Mud and sludge cause most of the corrosion which is why hand cleaning gutters is simply not enough sometimes to remove the bulky materials.

If you have a gutter guard installed, make sure to clean underneath regularly to avoid the decomposed materials building up and rusting the gutter.

You could blow or hose out the gutters, but you run the risk of water, mud and sludge entering the roof cavity or running down the side of the house and

windows, creating a huge mess.

Vacuum cleaning is a practical and ideal way to ensure that the job site is left clean and free of debris, Gutter-Vac's motto is clean, safe, easy.

Gutter-Vac Southern Tasmania carries out the gutter cleaning efficiently and effectively, using professional equipment to achieve results.

The team are all trained to work at heights.

Every vehicle carries a temporary anchor system to work on the roof safely.

The team utilises a ground system to vacuum the gutters when the roof can't be safely accessed.

Safety is important.

The Gutter-Vac team know how to manoeuvre around the roof and on and off the ladders.

It is not an easy task at times and is best left to the professionals.

Ladder accidents are too common in Australia and are not worth the risk.

Gutter-Vac Southern Tasmania specialise in domestic and commercial gutter cleaning and also provide additional services such as solar panel cleaning, lichen treatments, cleaning of storm water pits and french drains, and bird proofing gutters.

Combustion stoves at Hollander

Rayburn combustion stoves have been manufactured in Britain since 1946, just after the end of World War II.

Still being made today, and having been sold by Hollander Imports for over 35 years, the superior quality of the Rayburn brand is well known in Australia for its efficiency.

As well as heating the rooms in which they are installed, Rayburn combustion stoves have a cast iron oven and cast-iron cooking plates, including a quick boil plate.

The oven provides very efficient heat retention and the cookers provide hot water needs for the family, ideal for

both city and rural living.

In addition to all of the operations mentioned above, the Rayburn Model 355 is able to provide central heating, with flue kits, hot water cylinders and radiator panels also available to purchase.

John and his team are more than happy to assist you with your heating requirements.

For further information on the Rayburn cookers, stop in at Hollander Imports at 87 Brooker Highway, Hobart.

Hollander Imports are open Monday to Friday from 9am to 6pm, feel free to give them a call on 6234 5799.

The Rayburn 200 Series combustion stoves, perfectly at home in any kitchen, are available from Hollander Imports in a variety of colours to suit your décor. (PS)

The Property Culture celebrates first year

On Tuesday, April 4, 2023, The Property Culture will celebrate its first birthday.

Founders Colby Bauckham and Karl Gallienne are thrilled with the incredible support they've received from all their clients and the wider community.

In just 12 short months, the team has sold just under \$31,000,000 worth of property in the Huon Valley, demonstrating just how much demand there is for a gorgeous island home.

"Over the last three years, the real estate industry has seen some interesting trading conditions from the huge price increases during the COVID-19 pandemic period, to the now normalising market conditions as interest rates stabilise and the month on month growth now slows," said Colby.

"We're still seeing vendors achieve some great results in the current climate and for those buying and selling within the same market, they are benefitting from more stable conditions which is quite a welcome relief."

If you are looking to sell your Huon Valley property, The Property Culture would love to help.

With a broad skill set, Karl and Colby are happy to assist you with anything from 4x4 accessible bush blocks and residential land, right through to premium and prestige property sales.

Their focus is on high quality marketing strategies appropriate for your sale, and tailored service for both you and your potential buyers.

"We can't wait to sit down and discuss how our team can best help you to sell and find a home somewhere new," said Karl and Colby.

"For a truly bespoke selling experience, please get in touch with us."

Pellet heating industry surges ahead

Is it time to upgrade and reduce your heating costs?

Popular heating choices in Tasmania have been heat-pumps and traditional wood heaters.

Over the past 20 years, pellet heating emerged and has been replacing wood heaters and complementing heat-pumps, merging pleasant heat with an eco-friendly angle.

Pellet fires have become a popular alternative and there are reasons why.

Low cost, high efficiency heating choice

The average home use is around \$600 a year for pellets.

Pellet fuel, made right here in Tasmania is available at all major hardware stores and other fuel depots statewide.

Wood pellets are a renewable and recycled energy source

When burned, pellets create a consistent heat akin to a wood or gas heater keeping the pleasant feel that comes from combustion heating but keeps the convenience of a push button, thermostat-controlled heat pump.

WiFi enabled heaters have programmable timers and thermostat control from your phone.

No smoke, spiders, dust in the home and large wood stacks outside.

No freeze ups when you need heating the most.

Installation and service statewide

Rob Douglas, Managing Director of Pellet Fires Tasmania, is aware of the heightened interest in pellet fires in recent times.

"The most common reason for buying a pellet fire is for those who appreciate the warmth of a flame but do not want the additional work that comes with maintaining a fireplace."

On top of the emotional appeal of a pellet fire, is the incredible efficiency which directly translates into savings when compared to other forms of heating.

Pellet fuel is now much cheaper than traditional firewood, costing less to run than at the current market rate of \$200 per tonne of firewood.

"The pellet fuel and heating market has matured," said Rob on what the new suppliers of pellet fuel have done for the industry here in Tasmania.

"The added competition has created a low cost heating alternative with the pellet industry really poised to grow quickly as the price of firewood and electricity increases."

When you next think about heating, consider Pellet Fires Tasmania before making your final choice.

For more information, contact Pellet Fires Tasmania 6273 7644 or visit their showroom at 108 Gormanston Road, Moonah.

Changes afoot at Crawleighwood

With Autumn's arrival, Crawleighwood Garden is starting to see those annual changes that signal the end of the summer flower displays and the beginning of spectacular autumn colours.

April is the month to come and see maples, ashes, chestnuts and other deciduous trees and shrubs in all their Autumn glory.

Other changes are also afoot at Crawleighwood, after 35 years of public service, working five days a week in Hobart, Crawleighwood co-owner, Penny Wells, is transitioning out of her current role as CEO

of Private Forests Tasmania to look after her health and spend more time in the garden.

Penny and her husband Pav see this as a time when Crawleighwood can achieve that little extra polish, time to finish the projects that are currently underway and plotting and scheming some new ones.

Pav and Penny invite you to take time out this Autumn to come and say hi, have a garden tour, visit the nursery or simply just wander the garden on your own for quiet reflection.

With its sprawling lawns and parklands, Crawleighwood

Garden is a great place to visit with the kids, or to bring a picnic lunch and a bottle of wine for a lazy afternoon.

The nursery is packed with plants for gardeners looking for spring or autumn colour, something unusual or simply a great bargain.

Crawleighwood Garden and Nursery is open from 10am to 4pm on Thursdays, Fridays and Saturdays.

Garden entrance is \$8 for adults and no charge for children or if you are just visiting the nursery.

Elders Real Estate Southern Tasmania has been proudly operating in Margate for over six years. Their dedicated sales and property management team all live locally and know our local market. (PS)

What to look for in a property manager

When choosing a property manager, these are the most important things to look for.

Trust

Your real estate agent will be guiding you through some big decisions, so building relationships on trust is important. A good real estate agent is totally transparent and always listens to your ideas and concerns.

Communication

Good communication with all parties is essential and your Elders Real Estate property managers are trained for this. They understand that communicating with you on a regular basis is a priority.

Reputation

Elders is one of Australia's most established real estate brands. They have worked hard to make sure they continue building on their unmatched reputation as a trusted, hard-working, honest brand, loyal to Australians for the over 178 years. Despite the competition, they continue to be the best in real estate.

Experience

With all the rules, regulations, fees and charges that are involved, it is hard to know where to begin and what's next. Elders Real Estate property managers will guide you through the process as simply and easily as possible. Elders Real Estate property managers live and work in the communities they cover so whatever is going on, they know about it. Elders Real Estate Southern Tasmania has been proudly operating in Margate for over six years. Their dedicated sales and property management team all live locally and know our local market. If you are thinking of buying, selling or renting, talk to the Elders Real Estate Southern Tasmania team about how they can manage your investment portfolio. Sewing since she was a teenager,

Robin Cameron, with over 30 years' experience in the industry, has a haberdashery outlet in Cygnet. (PS)

Robin has enjoyed sewing and assisting others with their sewing. Robin taught textiles and curtain manufacturing at TAFE back in the 90s and had a business in Hobart for over 30 years, specialising in curtains and soft furnishings. Her passion is embroidering and knitting in her spare time. "We have just reached our 18 months milestone of opening the Cygnet store," said Robin. "The shop is set up with many more products on offer apart from the usual haberdashery items with buttons, ribbons, bias binding, cords, interfacings of various qualities etc." Needle work, tapestries and small starter items are available for beginners and younger people starting out, eager to learn some form of sewing. Curtain linings, tapes and hooks are all available as well as a selection of Zepel, Warwick, Linen and Liberty fabrics to order. Robin now has patterns to help with your selections. Her newest addition to the range of products available are DMC Embroidery threads. Robin offers alterations for those who need to sew on a button or two and she is available to help with all your sewing problems and queries. Stop in at 2SEW Haberdashery located at 30B Mary Street, Cygnet or call her today on 0407 273 678.

Quality building products and service with Maxfield

A locally owned family business with over 20 years' experience, Wayne and Paula Maxfield reside in the community where their children and grandchildren were raised, meaning they can easily relate to their customers and understand their requirements.

Maxfield Constructions supply and erect steel framed sheds, garages, carports, roofs, concrete slabs, driveways and pathways, Colorbond fences and anything else their extensive range of skills allow.

"We design, customise and manufacture our builds specifically to meet our clients' needs, we also build other shed companies' products, but only when they're of a similar, high standard to our own," said Paula Maxfield, co-owner of Maxfield Constructions.

"Always do your homework when choosing a builder, and look at the quality of the building, as you get what you pay for," she continued.

Maxfield Constructions has survived, even thrived, in an industry that's experienced many ups and downs over the years.

Despite the challenges, they've remained competitive, and continue to provide excellent service to all their clients.

For your next project, no matter how big or small, contact Paula on 0407 642 184 or Wayne Maxfield on 0408 160 729 or email maxfieldconst@bigpond.com

Bird proofing that looks great

People call Gutter Knight Tasmania to solve many problems like improving tank water and installing effective ember guard, but mostly it's about keeping out the birds.

Lachlan launched Gutter Knight Tasmania with the loss of homes during the Dunalley bushfires in mind.

"I wanted a premium gutter guard system for my home because I knew that falling embers were the leading cause of home loss during bushfires," said Lachlan.

"I saw a business opportunity where I could provide a quality safety measure and peace of mind for Tasmanians.

"Fast forward to today and we have Gutter Knight Tasmania, the experts in all things gutter guard."

Gutter Knight Tasmania serves the whole state.

"I love serving our community here in Tasmania," says Lachlan.
